PRESIDENT'S REPORT

Tony Gliane
President@lakejane.org

Dear Lake Jane Members,

Since I am new to all of you, I thought I would give you a little background on me!

I was born in the Philippines. At the age of 9 I migrated to the United States in 1974 with my parents, brother and sister.

I grew up in the Los Angeles area and earned a Bachelor of Science in Engineering from Cal State University, Long Beach in 1987.

Then I interned at Douglas Aircraft and eventually landed a fulltime job in their Fabrication Division.

In 1993 Aerospace dove into a slump and I was laid off. Unemployed, I met my future wife, Jorie, and decided to restart in San Diego where I found a Mechanical Design job with Delta Design, a microprocessor test company.

Jorie and I were married in 1996. Shortly thereafter, I applied for and received an offer with the Boeing Company that I couldn't refuse.

We relocated to the Seattle area and were blessed with a daughter Joanne in 1998.

We have lived in Bellevue, Kent, then NE Tacoma while I worked in several Boeing sites including Auburn, Puyallup, and Seattle.

In 2008, we planted our roots in Bonney Lake – Lake Jane Estates where we enjoy our home, community, and the Great Northwest.

The annual meeting this year was held in person on July 31st, 2022. We had 26 members present and 4 proxies. There was no quorum. The budget for 2023-24 was automatically approved.

We are having our annual UpTekk recycling event on Saturday, October 15th from 10am to 2pm off of 188th St. A flyer will be sent out with a list of items they will accept.

Lastly, we have a vacancy in the vice-president position. If you're interested in this, please contact me or Melissa!

Wishing you a happy and healthy fall.

Tony Gliane
President, Lake Jane Estates
